

HEATING

ULTRATEMP[®]

HIGH-PERFORMANCE
HEAT PUMP

An energy-efficient way to heat
your pool and spa.

DEPENDABLE PERFORMANCE AND EFFICIENCY.

Easy on energy consumption. Easy on your wallet.

Looking to heat your pool without breaking the bank? Look no further than the UltraTemp® High Performance Heat Pump. Heat pumps capture free heat in the air and transfer it to your pool water, making it an energy efficient way to heat your pool and spa. Compared to gas, oil or electric heaters, heat pumps use just a fraction of the energy to generate the same amount of heat; in fact, they can be five times more efficient than other heating methods. That means more comfortable water and a longer swim season for you and your family.

◀ Quiet operation

Sound insulating construction to keep noise at a minimum. For those looking for ultra-quiet operation, the UltraTemp 120Q is our quietest heat pump ever.

◀ Automation ready

Connect with Pentair automation to control your pool functions from across the yard or around the globe.

◀ Economically friendly

Low energy consumption make UltraTemp heat pumps an economical solution for pools.

◀ Titanium heat exchanger

100% titanium heat exchanger is corrosion-resistant and provides a longer-lasting performance backed by our lifetime warranty.

◀ Heat/cool functionality

Available with heat/cool functionality that can automatically heat or chill your pool to your desired temperature.

◀ Industry leading warranty

Ten-year warranty on compressor parts and labor, plus lifetime warranty on titanium heat exchanger. Go to pentair.com/warranty for details.

◀ Easy to use

Intuitive menu driven controls with full-word readout for easy operation.

ULTRATEMP® FAMILY

Ultra-quiet operation

Raised top panel construction as well as redesigned fan; result in ultra-quiet operation.

Intelligent control

Smart on-board controls to control the unit or to pair with Pentair Automation Systems.

Durable composite cabinet

Long-life, corrosion-resistant composite cabinet retains a like-new appearance for years.

2" plumbing connections

Standard 2" plumbing connections for easy installation.

Scroll compressor

Quiet and efficient scroll compressors come standard on all UltraTemp models backed by a 10-year warranty for parts and labor.

Noise dampening side panels

The UltraTemp 1200 model has noise dampening composite side panels to help reduce compressor and fan noise.

TRADEGRADE

All UltraTemp models are TradeGrade. The TradeGrade family of products is exclusively made for and sold by the world's most demanding pool professionals.

ULTRATEMP[®]

HIGH-PERFORMANCE HEAT PUMP

COMPARING THE COST TO HEAT YOUR POOL AND SPA

HEATER/FUEL TYPE	EFFICIENCY	COST PER UNIT	UNIT OF MEASURE	BTU/\$1.00
UltraTemp Heat Pump	5.80	\$0.14	kWh	138,389
Natural Gas Heater	0.84	\$1.21	Therm	69,479
No. 2 Heating Oil Heater	0.75	\$3.45	Gal.	29,869
Electric Resistance Heater	1.00	\$0.14	kWh	23,860
L.P. Gas Heater	0.84	\$2.23	Gal.	34,342

Costs are based on 2022 national average fuel costs and efficiencies (source: Federal Register). Please consult your local provider for current pricing.
